Re: MDL 1332; Burst v. Microsoft Corporation

Dear John:

Pursuant to our phone call, we have agreed to the following:

1. The issues regarding searching backup tapes need to be presented to the court.
2. With respect to custodians, Microsoft will add Carper, Gershaw, Donka, Olson and Paddleford to your custodian lists for searching documents in response to all Burst's requests.
3. We will work together on a determination of whether to add Cutter, Faustini, Harrison, Lee, Unangst, Plastina and West to the custodial list. We feel strongly that these individuals should be custodians, but are willing to work with you on limiting the search terms to reduce burden.
4. With respect to Fitzgerald, Brumer, Stork, Slivka and Seekings, we will review the previous documents requests that you identify to us which you believe covered all of the Java-related documents included in Burst's request and only press this issue if we find gaps.
5. We will strike Raikes, Michali and Torborg subject, of course, to later discovery of facts which might make them appropriate custodians.

6. You will check further of Mazhar's involvement in the WMP 7.0 plug-in break and any files he is aware of regarding that matter. From our perspective, he must be a custodian and we think you will agree.

Thank you.

Very truly yours,

Spencer Hosie
